

CONDATO LIFT FROM SWEDEN

CONDATO MINI

Condato Mini is our smallest and most cost effective lift. Mini with its compact platform size 700x1100 is suitable for small areas, either as built in or stand alone. It's maximum travel height is 15 meters and it has a load capacity of 500 kg.

CONDATO PRIME

Condato Prime is the perfect merge between economy and high quality. Prime offers platform sizes from 1100-1600 mm, a travel height of 15 meters and a solid load capacity of 500 kg. Choosing Prime, you will get a lift with an innovative and unique construction which makes the installation easier, quicker and at a lower costs.

CONDATO GRANDE

Condato Grande is our most powerful lift and therefore also the perfect choice for public usage. It has an amazing load capacity of 1000 kg which make it easy to lift over 10 people. With its modern look, Grande can easily fit to any type of environment.

CONDATO CLASSIC

Condato Classic is a perfect home lift for you who seek maximum cost efficiency for home but yet keeping the high quality of safety and strength. Classic comes with a top height of 3 meters (2 Floors) and can carry up to maximum of 400 kg.
